Freeware Scenery for X-Plane 11 and X-Plane 11 with an improvement of the standard scenery

The freeware scenery X-Europe is from simHeaven and was first released in February. The latest version is X-Europe v4.4.1 and was released on April 14th, 2020. So far the scenery has been downloaded more than 150,000 times.

This is a very extensive scenery in which the standard X-Plane objects have been revised and repositioned. Data from [OpenStreetMap](#) served as the basis for the new placement.

1 Download

The download file is 7.6 GB in size and packed with the free software [7-Zip](#). To unpack it, it must be installed on the local PC. When unpacked, X-Europe takes up 14.6 GB of hard disk space. So there should still be enough disk space available.

The Download of X-Europe is available here [on the official website](#).

2 Changelog X-Europe 4
